

Press Release

Bharat 6G Alliance and 6G Brasil announced Memorandum of Understanding to Advance Global 6G Technology Collaboration

Asa Norte, Brasília – DF/New Delhi, 16th October 2024: The **Bharat 6G Alliance (B6GA)** and **6G Brasil** have signed a landmark **Memorandum of Understanding (MoU)** which was announced in the presence of **Shri Jyotiraditya M. Scindia**, Hon'ble Minister of Communications and Development of North-Eastern Region, who inaugurated the **International 6G Symposium**, held at **India Mobile Congress (IMC)** on **16th October 2024** in **New Delhi**.

The MoU formalize their shared commitment to advancing 6G technology through collaboration, innovation, and the development of a global 6G ecosystem. This partnership marks a significant step toward establishing international cooperation in shaping the future of next-generation networks.

The MoU outlines the framework for cooperation between the two organizations, aimed at accelerating 6G research, innovation, and the creation of globally harmonized standards. The collaboration will strengthen the partnership between India and Brazil in the field of telecommunications and next-generation connectivity, aligning both countries' ambitions to be leaders in the development of 6G technologies.

The collaboration with 6G Brasil presents a unique opportunity for India and Brazil to lead the charge in shaping the future of telecommunications. The combined expertise and

shared vision will significantly contribute to the evolution of 6G technology and its industrial applications.

The MoU will provide a platform for ongoing collaboration, enabling both organizations to exchange knowledge, foster innovation, and work together to shape the future of global communications.

About Bharat 6G Alliance (B6GA):

The Bharat 6G Alliance is established as a not for profit Society under Indian laws (<https://bharat6galliance.com/>). It is an alliance of Indian industry, academia, national research institutions and standards organizations facilitated by the Government. The vision of Bharat 6G Alliance is aligned with the Bharat 6G Mission of the Government of India to design, develop and deploy technology and innovations that provide an intelligent and secure solution for high quality living experience of citizens in India and across the world. The Bharat 6G Alliance aims to promote the ecosystem for research, design, prototyping, development, proof of concept testing, IPR creation, field testing, security, certification and manufacturing of telecom products, end-to-end Solutions, Use-cases, Pilots, etc.

About 6G Brasil:

6G Brasil is headquartered in Brasília, Brazil (<https://5gbrasil.telebrasil.org.br/>), and is a Private autonomous project under Telebrasil (Brazilian Telecommunications Association), which is a private association with 53 institutions members whose main objective is to represent the interests of the telecommunications sector in Brazil and to promote its development. The main goal of 6G Brasil is to promote the development of the 5G and 6G ecosystems in Brazil through: enabling and establishing communication between the ICT sector and all spheres of government and regulatory agencies in Brazil; looking for financial support for the promotion and use of 5G-6G technologies; promoting national and international cooperation agreements for 5G-6G technologies development and adoption; establishing and maintaining open interaction with non-ICT organizations, also called vertical sectors; sharing information regarding 5G-6G technologies among Members and Associates in line with compliance and legal limits; representing the common interest of the members, when requested, in national and international forums related to 5G and 6G.
