Paving the Way for 6G Development: Strategic Partnership Between B6GA and South Korea's 6G Forum

South Korea/New Delhi, 16th October 2024: The **Bharat 6G Alliance (B6GA)** and **6G Forum, South Korea** have signed a landmark **Memorandum of Understanding (MoU)** during the **International 6G Symposium**, held at **India Mobile Congress (IMC)** on **16th October 2024** in **New Delhi**. The MoU was signed in the presence of **Shri Jyotiraditya M. Scindia**, Hon'ble Minister of Communications and Development of North-Eastern Region, who inaugurated the International 6G Symposium.

The MoU aims to create a robust framework for cooperation in **research, development, and standardization** of 6G technologies, setting the stage for innovation and mutual progress in both countries.

About Bharat 6G Alliance (B6GA):

The Bharat 6G Alliance is established as a not for profit Society under Indian laws (<https://bharat6galliance.com/>). It is an alliance of Indian industry, academia, national research institutions and standards organizations facilitated by the Government. The vision of Bharat 6G Alliance is aligned with the Bharat 6G Mission of the Government of India to design, develop and deploy technology and innovations that provide an intelligent and secure solution for high quality living experience of citizens in India and across the world. The Bharat 6G Alliance aims to promote the ecosystem for research, design, prototyping, development, proof of concept testing, IPR creation, field testing,

security, certification and manufacturing of telecom products, end-to-end Solutions, Use-cases, Pilots, etc.

About 6G Forum:

The 6G Forum, formerly known as 5G Forum founded in 2013, is a leading organization committed to the advancement of mobile communication technology (<https://www.6gforum.or.kr>). It has a vast experience in promoting international partnerships and collaborating with domestic academic institutions, public entities and domestic/global industries, and the Forum now focuses on 5G-Advanced and 6G technologies. Its one of mission is to lead global advancements in 6G, enhance convergence services across various sectors, and meet the ITU-R's 6G performance targets through strong international cooperation and active member participation.

Areas of Collaboration and Co-operation:

- 6G Vision and Next Generation network innovations.
- Discussions on basic system concepts, architecture and use cases
- Identification of common interests, building of consensus and collaboration to support development of globally harmonised standards for Beyond 5G and 6G
- Strengthening global cooperation in 5G/6G technology.
- Use cases of 6G and other topics
- Engaging with vertical industries to shape 6G industrial use cases
- Technology exploitation and dissemination to ensure awareness, understanding and involvement and finally adoption
- Participation of members of Parties in each other's events
