

Under this strategic partnership, formalized during the TSDSI Tech Deep Dive (TTDD) 2025 conference, TSDSI's annual flagship event on 18<sup>th</sup> July 2025, TSDSI and Bharat 6G Alliance (B6GA) aim to

- ✓ address India's priorities in 6G and future technologies
- ✓ co-operate in the field of development of standards for 6G,
- ✓ regularly exchange information on activity roadmaps and workplans at global forums related to technologies as well as on technical activities carried out within each other's organizations.

**Mr A K Mittal, Director General, TSDSI** remarked that "TSDSI is actively involved in nurturing the domestic standards development ecosystem so as to take a lead in the global 6G standards arena and achieve the goals of Bharat 6G Vision. TSDSI is delighted to have entered into this partnership with B6GA and looks forward to mutual alignment and harmonization of efforts in the respective areas of activities of TSDSI and B6GA, which will have a multiplier effect on research and development outcomes on the one hand and standard development and contributions to global standards on the other hand".

Welcoming the partnership, **Mr Rajesh Kumar Pathak, Director General, Bharat 6G Alliance** **stated that** "through this collaboration, Bharat 6G Alliance and TSDSI commit to harmonizing their activities in support of the Government of India's 6G Vision. The partnership will strengthen India's participation in global standards development processes and ensure that national priorities are effectively represented in shaping the 6G and future technology landscape. This partnership marks a significant step toward fostering synergy in India's efforts to lead the development and deployment of future communication technologies. This MoU reflects our shared commitment to build a self-reliant, innovation-driven, and globally competitive telecommunications ecosystem. We look forward to working closely with TSDSI to accelerate India's leadership in 6G and emerging digital technologies".

**About TSDSI:**

*The Telecommunications Standards Development Society, India (TSDSI) with registered office in New Delhi, aims at developing and promoting India-specific requirements; standardizing solutions for meeting these requirements and contributing these to international standards; contributing to global standardization in the field of telecommunications; maintaining the technical standards and other deliverables of the organization; helping create manufacturing expertise in the country and collaborating with other developing countries to jointly work on telecommunication related standardisation activities.*
